PROFESSIONAL EXPERIENCE

CAPGEMINI TECHNOLOGY SERVICES INDIA LIMITED

SENIOR ANALYST

📍 Kolkata, West Bengal

📅 April 2023 – Present

- Implemented Field Service features for **mobile and desktop**, enabling real-time updates, scheduling, and GPS tracking.
- Developed an automation process and custom **LWC feature** that reduced reliance on additional AppExchange services, achieving a **25% cost reduction** while significantly enhancing user interaction and engagement.
- Enhanced **offline functionality** within the Field Service mobile app, allowing technicians to maintain productivity even without network access, significantly improving operational efficiency.
- Facilitated **Sprint and PI demos** by showcasing features and clearly conveying complex technical concepts to both technical SMEs and non-technical stakeholders, enhancing project understanding.
- Supported **Pre-SIT, SIT, UAT, and hypercare**, user acceptance, and production hotfixes on **GoLive** day.
- Continuously working to add **GenAI** solutions to make development more efficient for the team.
